

William Mitchell Environmental Policy

William Mitchell Ltd are an SME and part of the Rical Group. They are the nominated responsible company for the Tramway site in Smethwick.

William Mitchell specialise in automotive components manufactured via;

- Fine Blanking from 160 to 630 tonnes.
- Conventional presswork up to 250 tonnes by both progressive die and single action methods.
- Secondary operations that include grinding, welding, assembly, cleaning and de-burring processes

The company recognises that the sites day to day operations inevitably impact on the environment. It wishes to minimize the potentially harmful effects of these activities through a programme of continual improvement in accordance with the requirements of ISO 14001.

In order to do this William Mitchell Ltd will:

- Evaluate the sites environmental impacts associated with its activities and set improvement objectives
- Comply with, and endeavour to exceed, the requirements of all applicable environmental legislation and other requirements
- Prevent pollution, reduce the production of waste and encourage the use of recycled materials

The improvement activities and or measures that are assigned to the Management Team, will be communicated in the business plan and then documented and monitored via the Management review meetings.

Signed: 
Mr. Jason Pyott
Managing Director
